<Experience>

Senior Software Engineer @ TechNova Solutions

2020-05-01 - Present

Architected a scalable microservices ecosystem using Node.js and Docker, handling over 2M daily requests. Mentored a team of 5 junior engineers, fostering a culture of continuous learning and code quality. Reduced page load time by 40% through aggressive code splitting and implementation of an edge-caching strategy. Spearheaded the migration from a monolithic application to AWS serverless architecture, reducing hosting costs by 30%.

Software Engineer @ DataSphere Inc.

2017-08-01 - 2020-04-30

Developed high-performance RESTful APIs to support a data-intensive dashboard used by Fortune 500 clients. Integrated third-party payment gateways, processing over \$10M in transactions securely. Collaborated with UX/UI designers to implement accessible and responsive React components.

<Projects>

E-Commerce Platform Redesign

Led the frontend migration of a legacy e-commerce site to Next.js.

Open Source Analytics Library

A lightweight analytics tracker for single-page applications.
